BRAINSTORM

come up with three different ideas of themes + interactive features

IDEA 1: STAR WARS

Theme

An interactive webpage capturing the best film franchise ever made: Star Wars!

Interactive JS Feature #1

Make an enter the Galaxy Button that when clicked takes you away from the home screen and to the star systems page with all the planets.

Interactive JS Feature #2

When a planet's image is clicked, you will get taken to a mission page with an assigned Star Wars character.

Interactive JS Feature #3

When a character's image is clicked, an iconic line of their's plays. If the image is clicked again the picture will change to a gif.

IDEA 2: DEMON SLAYER

An interactive webpage that teaches about the unique breathing styles and blood art techniques used by demons and demon slayers.

Interactive JS Feature #1

When an element's image is clicked, you get taken to an info page about the breathing style related to the element.

Interactive JS Feature #2

When you click on the characters, a quote of theirs will play.

Interactive JS Feature #3

When you click on a character's image, it will change to a new character who shares the breathing technique, and also play a quote of theirs.

Idea 3: BlackPink

Theme

An interactive webpage that includes the bio for each member, parts of their songs, and pictures (a Blink fanpage).

Interactive JS Feature #1

Interactive JS Feature #2

Interactive JS Feature #3

When the BlackPink logo's image is clicked, an image of all the members and their bios will appear.

When the solo album covers are clicked, a clip from a song will play and the member who corresponds will appear.

When a member's image is clicked, a cute picture of them will appear and an audio clip of them saying "Hi! I'm ____!" will play.

EVALUATE

think about the good and bad for each idea then choose one

Evaluate + Choose Your Idea

	Pros	Cons
Idea 1: Star Wars	<ul style="list-style-type: none">• Lots of room for creative expression.• The images will likely be pretty easy to find.• There are so many characters in the Star Wars verse, which gives me lots of options and images to work with.	<ul style="list-style-type: none">• The audio clips that I want to use might be hard to find.
Idea 2: Demon Slayer	<ul style="list-style-type: none">• I can be very creative with the colors and pictures I use in my design.• There are a lot of breathing techniques and art styles in demon slayer, giving me plenty of options to chose from and incorporate in my design.	<ul style="list-style-type: none">• The audio clips I want to use will be very hard to find• Less features on the webpage (potentially making it less visually appealing).
Idea 3: BlackPink	<ul style="list-style-type: none">• Only four members which means I have less content I need to research and cover.• The audio clips I want to use will be easy to find	<ul style="list-style-type: none">• More of an info page so it's less fun
